

**Postsecondary Case Manager Profile Survey
Email Invitation Template**

The Centre for Innovation in Campus Mental Health recently launched a Case Managers' Working Group through CICMH Connects. The purpose of this online community of practice is to facilitate knowledge sharing and support collaboration among Ontario postsecondary case managers.

In an effort to develop a profile of postsecondary case management in Ontario, we are inviting CICMH community of practice members who identify as a case manager to complete a short survey. Survey results will be shared at the Postsecondary Case Managers' meeting being held during the CICMH Campus Exchange event on June 9th.

While your participation is entirely voluntarily, your help would be greatly appreciated. Any information you provide will be kept strictly confidential: only aggregate data will be reported. Responding to any question that could potentially identify you is entirely optional.

The survey can be accessed until **Friday May 8, 2015** via the link below:
