

Post-Secondary Student Mental Health Strategies in Ontario

This document provides some examples of mental health strategies within various post-secondary institutions in Ontario. We have also included documents with relevant recommendations put forward by some campuses on creating mental health policy and strategy. This is not an exhaustive list as some of the documents cannot be accessed online. If you would like to see your campus on this list or would like us to update one of the links below, please contact: info@campusmentalhealth.ca.

Definitions

- **Mental Health Policy** – Statements that provide direction for mental health services that reflect the organizations principles, intent and values.
- **Mental Health Strategy** – A collection of steps and plans to achieve goals related to mental health. This can include how to execute policies.
- **Mental Health Framework** – An overall plan or structure that guides strategy execution and provides tools and boundaries for implementation.
